## CLIENT GUIDE: FIVE ESSENTIAL PITCHING DRILLS

---

# Hi, I'm ALAINA

Hey there! I'm Alaina Valdez and I'm so excited to be working with you.

First up: a little about me. I am the founder of Fifth Gear Pitching. My goal was simple: to make it easier for pitchers to get the proper tools they need.

I am excited to work with you and help you learn the proper mechanics at any age level!

---

# FIVE DRILLS

Mastering the fundamentals is the foundation of becoming an elite pitcher. These five essential drills will help you build consistency, strength, and accuracy while avoiding common mechanical mistakes

01

## POWER LINE DRILL

Focuses on stride alignment and keeping your motion straight towards the target. Use a tape or chalk line to maintain proper alignment every pitch.

02

## WRIST SNAP DRILL

Improves spin and velocity. Practice snapping your wrist with a softball at a short distance to emphasize spin.

03

## K-POSITION DRILL

Reinforces correct pitching posture at the halfway point of delivery. Hold the 'K' position for 3 seconds before finishing.

---

# FIVE DRILLS

Mastering the fundamentals is the foundation of becoming an elite pitcher. These five essential drills will help you build consistency, strength, and accuracy while avoiding common mechanical mistakes

04

## RESISTANCE BAND WARM UP

Prepares shoulder and arm muscles to prevent injury. Incorporate band pulls and rotations before pitching.

05

## LONG TOSS PROGRESSION

Builds arm strength progressively. Start at 30 feet and extend gradually, focusing on accuracy and fluid mechanics.

## PRO TIP

Track your progress weekly. Focus on quality over quantity. Film your drills to check for consistency and make adjustments as needed.

BRING THIS MINI CHECKLIST TO PRACTICE
